METRIC

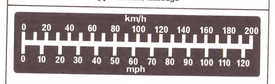
Canada is converting to the metric system. Temperature, rainfall, snowfall, windspeed and visibility are now expressed in metric units. All distance markers and all road speed signs are in metric units – kilometres and kilometres per hour. On January 1, 1979, service stations will start to convert their gasoline pumps from gallons to litres.

Miles X 1.6 = approximate kilometres (km)
Kilometres X 0.6 = approximate mileage



MAXIMUM 30 becomes	MAXIMUM 50	MAXIMUM 65 becomes	MAXIMUM 100

HIGHWAYS TO ADVENTURE

EAST-WEST ROUTES

TRANS-CANADA NO. 1 – This 8000 km highway, one of the world's longest, stretches from Newfoundland to Victoria, B.C. The 533 km Alberta section begins at the Saskatchewan border, 3 km east of Walsh, then runs northwest through Medicine Hat, Calgary, Banff and Lake Louise. The highway enters British Columbia via the Kicking Horse Pass. (Altitude 1647 m)

YELLOWHEAD NO. 16 – This 'western' counterpart of the Trans-Canada which runs through Manitoba, Saskatchewan, Alberta and British Columbia, was named after a pioneer fur trader in the Jasper area. The Alberta section with a total of 633 km, begins in Lloydminster, runs west through Edmonton, Edson, Jasper, and leaves Alberta via the spectacular Yellowhead Pass. (Altitude 1131 m)

SOUTHERN TRANS-PROVINCIAL HIGHWAY NO. 3 – Starting at Medicine Hat and running southwest through Lethbridge, Fort Macleod, Pincher Creek and Coleman, this highway leaves Alberta via the Crowsnest pass (Altitude 1396 m), a distance of 329 km. The highway passes through the Frank Slide, a huge area of rock which fell from Turtle Mountain in 1903.

DAVID THOMPSON HIGHWAY NO. 11 — The section of No. 11 from Nordegg, over the Kootenay Plains to the Saskatchewan River crossing at Banff National Park, is named after Alberta's famous fur trader, explorer and map maker of the early 1800's. The total distance of 86 km is paved. The unexcelled scenery of the area includes Abraham Lake and the Big Horn Dam.

NORTH-SOUTH ROUTES

ALBERTA NO. 2 – This is the longest south-north highway in Alberta 1363 km of pavement running from Carway (on U.S. border), north through Cardston, Fort Macleod, Calgary, Edmonton, Athabasca, Slave Lake, Peace River, Dunvegan, Grande Prairie and west into British Columbia at Tupper.

Alternate Route – northwest from Edmonton on No. 16, No. 43 and No. 34 to junction with No. 2 at Grande Prairie or 46 km north of Valleyview.

MACKENZIE HIGHWAY NO. 35 — Named for northern Alberta's famous explorer, *Alexander Mackenzie*, this highway extends 471 km north from Grimshaw, 21 km west of Peace River, all the way to the Northwest Territory border. Paved, with 55 km of gravel between Meander River and Indian Cabins.

ALBERTA NO. 36 – This 682 km partly paved highway begins at Warner, 39 km north of the U.S. border on No. 4. It crosses No. 3, No. 1 and No. 16 on its way north to Lac La Biche. It offers exceptional variety in terrain and points of interest, ranging from the Badlands and dinosaur fossils to the Alberta Game Farm and The Lakeland.

ALBERTA NO. 63 – This paved highway, 19 km northeast of Redwater, goes north to Fort McMurray, one of Alberta's fastest–growing northern towns. Fort McMurray is the site of the Athabasca Oil Sands. Further to the north is the fly–in community of Fort Chipewyan on Lake Athabasca.

ICEFIELD PARKWAY NO. 93 – The Show Window of the Rockies, between Jasper and Lake Louise. One of the greatest "highroads" of the world, the Icefield Parkway commands 229 km of breathtaking scenes of the snow–capped Canadian Rockies, including the 3491 m peak of Mount Athabasca. At places the altitude of the highway itself is nearly 2100 m above sea level. It passes within a mile of the Athabasca Glacier, a tongue of the great Columbia Icefield easily reached by an access road. Be sure to allow sufficient time to enjoy the many scenic viewpoints along the route.

ALBERTA FORESTRY TRUNK ROAD SYSTEM – This often–missed 1017 km route features some of Alberta's most spectacular scenery, natural wilderness and finest camping facilities. Constructed primarily for forest protection, it runs largely through the untouched beauty of the Rocky Mountains Forest Reserve, from Coleman on No. 3 in the south to No. 34 in the north, 38 km east of Grande Prairie. Laced with well–stocked rivers, lakes and waterfalls, peaks and canyons, the Forestry Trunk Road is dotted with quiet campsites. The road is gravel with short sections of paved primary highways.
